

Slip resistant structure

NOVA

***The modular flooring system
with covered surface and slip
resistant structure.***

**Easy to install • Durable
Attractive • Withstands heavy loads
For indoors and out • Easy to move
Minimal maintenance**

Usage areas

Bergo Flooring has developed a wide range of flooring products for different environments.

Nova is specially developed for usage areas such as: racing tents, work stations, public areas, offices, recreation/hobby-rooms, garages, storage rooms, laundry rooms and other residential applications.

Advantages

- Easy to install
- Ventilates the floor underneath
- Can be used both indoors and out
- Moveable
- Easy to keep clean
- Attractive, durable and practical!
- Possible to achieve various designs

Easy to install and move

Tapping a rubber mallet or similar over the protruding rings easily interlocks the tiles together. No special tools, glue or screws are required. If necessary, use a jig- or a circular-saw to cut the tiles for a perfect fit.

The Bergo tile is easy to move by using a Disassembly-tool (see picture). For an increased comfort a suitable sound absorbing foam underlay may well be used underneath the NOVA tiles.

Easy to keep clean

Bergo tiles require virtually no maintenance. Normal floor care such as occasional wiping with a damp cloth, vacuuming and/or hosing is usually all that is needed. The Nova tile can stay outside in both summer and winter.

Accessories

- *Edge strip* – 376 x 55 mm, for a smart and safe finish.
- *Corner strip* – 55 x 55 mm.
- *Decor/Cable strip* – 376 x 55 mm, for special design purposes and/or hiding cables underneath the flooring.
- *Decor/Cable cross-piece* – 55 x 55 mm, to be used as two lines of the above Decor/Cable strips intersect with each other.
- *Joint strip* – 378 mm, for decoration and closing joints.

The rubber joint strip are installed in between each NOVA tile in order to create a completely covered surface. The rubber joint strip should only be used indoors or as one have a constant temperature where the flooring are being installed.

Technical information
