Easy to install

Tapping a rubber mallet or similar over the protruding rings easily interlocks the tiles together. No special tools, glue or screws are required. Use a jigsaw to cut the tiles for a perfect fit.

Minimal maintenance

BERGO **Unique** requires virtually no maintenance. Normal floor care such as occasional wiping with a damp cloth, vacuuming and/or hosing is usually all that is needed.

BERGO **Unique** can stay outside in both summer and winter. Your floor will be in good condition year after year. BERGO **Unique** is without doubt a cost saving alternative to high maintenance floors/coatings.
